National Academies Press. Paperback. Book Condition: new. BRAND NEW, A Review of the Use of Science and Adaptive Management in California's Draft Bay Delta Conservation Plan, Panel to Review California's Draft Bay Delta Conservation Plan, Water Science and Technology Board, Ocean Studies Board, Division on Earth and Life Studies, National Research Council, The San Francisco Bay Delta Estuary is a large, complex estuarine ecosystem in California. It has been substantially altered by dikes, levees, channelization, pumps, human development, introduced species, dams on its tributary streams and contaminants. The Delta supplies water from the state's wetter northern regions to the drier southern regions and also serves as habitat for many species, some of which are threatened and endangered. The restoration of water exacerbated tensions over water allocation in recent years, and have led to various attempts to develop comprehensive plans to provide reliable water supplies and to protect the ecosystem. One of these plans is the Bay Delta Conservation Plan (BDCP). The report, A Review of the Use of Science and Adaptive Management in California's Draft Bay Delta Conservation Plan, determines that the plan is incomplete in a number of important areas and takes this opportunity to identify key scientific and...
